BECOME A PARTNER

As a dynamic partnership organization, we bring together a diverse set of stakeholders to take on some of the most pressing global challenges. Our corporate partnerships link the entrepreneurial spirit and expertise of the private sector with the social, economic and environmental objectives of the United Nations. Our results-driven partnerships with scientists, foundations, membership organizations and faith communities make a difference in the important work the UN does across a broad range of issues.

Together, we are decreasing mortality from preventable diseases, creating a clean energy future, empowering women and girls, and improving U.S.-UN relations.
